BRIDGE REPAIRS TO BEGIN IN CROYDON
NH ROUTE 10 OVER ASH SWAMP BROOK

The New Hampshire Department of Transportation announces bridge repairs are scheduled to begin the week of April 3, 2006 on the NH Route 10 bridge over Ash Swamp Brook in Croydon.

This work will involve the replacement of the bridge deck and will take approximately three months to complete. During this time traffic at the bridge will be restricted to a 12-foot wide single lane. Concrete barriers and stop and yield signs will be used to guide motorists through the work zone. Work on the bridge will occur daily between 7:00 am and 3:30 pm.
